

Minutes of the Bream Bay College PTA
Meeting held on Wednesday 11 May 2016

Prior to the meeting we had a group of parents attend a tutorial session on how to navigate the Bream Bay College website, looking at the Spider calendar, learning how to read and understand Student Reports & Assessments...etc, and how to access the portal in PcSchool and google classroom. If there is enough interest from parents we could look at holding another evening next term to look at some of the enhancements the school is working on at present.

Thanks to everyone that turned up and to Wayne, Bev and Sandra Hayward for their help and patience in helping some of the more IT illiterate of us become more familiar with the school website.

Principals Report:

Wayne Buckland

Trees & Replanting....

Wayne discussed the concern parents and students have had surrounding the cutting down of some of the mature trees around the school grounds. He assured us all that only the trees that were causing Health & Safety issues were felled. These issues related not only to the broken limbs

sustained by students who climb them, but also to the blocking of drains. There will be some replanting later in the year.
